

KEY POINTS

- * Predicted heights noted in this summary are predictions as released by the **Bureau of Meteorology**.
- * **Paroo River:** Mt Jack was last read on 17/05/2025 and is receding.
- * **Talyawalka Creek:** Water reached the gauge at the Barrier Highway on Friday, 16/05/2025. Further rises are not expected
- * **Warrego River:** Fords Bridge Bywash may remain at the minor flood level for the next few days before continued recession.
- * **Darling River:** The Darling River is due to fall below the minor flood level within the next 24 hours. Further riverine flooding is not expected along the Darling River, and this will be the last summary issued for this event.
